To Whom It May Concern,

RE Jones Bronze Service Saddle

This will certify Jones bronze service saddles are manufactured and tested in accordance with the latest revision of AWWA C800.

The bronze castings used for the saddle bodies are made from ASTM B62 material.

The O-ring used to seal the saddle body against the water main is made from rubber material that meets ASTM D2000.

Jones service brass is made in accordance with the latest revision of the Federal Safe Drinking Water Act effective January 4th 2014, and is certified to NSF 61 by a third party agency.

Sincerely,

Larry Aulich
Senior Product Manager
Jones
